

**US NAVY LEAGUE THAILAND SOUTHERN SEABOARD COUNCIL  
COMMUNITY SERVICE PROJECT – COMSERV PLANNING SHEET**

**Project: USS Pinckney COMSERV's - Painting at Muang Phuket School**

**Project Dates:** 24 September 2011, 07:00 – 14:00, depart from the port ~ 08:00 and return ~ 14:00, arrive at the COMSERV site around 8:45 and depart after lunch.

**COMSERV Participants and Point of Contacts:** USS Pinckney, ENS/EWO **Elizabeth A. Kandt**, [ [elizabeth.kandt@ddg91.navy.mil](mailto:elizabeth.kandt@ddg91.navy.mil) ], it is estimated to complete this job we will need 20-25 volunteers from the ship and there will be volunteers from US Navy League along with other locals. This project is also being proposed to local International Schools; QSI International School Phuket and British International School Phuket and hopefully several volunteers from each school can participate.

**Project Coordinator:** Brad Kenny – [ [esppkt@ksc.th.com](mailto:esppkt@ksc.th.com) ], Local Mobile Phone: 081-633 4279

**Proposed Project Details and Objectives:** The OrBaTor (local elected government official) Mr. Samran Jindapol (Mobile Phone: 089-724 7187) and his primary contact at the school, Mr. Montree (Mobile Phone: 086-739 7310), were originally contacted by US Navy League - Retired Commander David Rucker concerning several COMSERV projects at Muang Phuket School. A previous COMSERVE project painted the gymnasium and part of that project was painting the walls that include some chain link fence sections.

**This COMSERVE project in cooperation between the USS Pinckney and the following Local Organizations.**

For this COMSERV Project, there are several small areas of the Chain Link Fence that needs finishing touch up painting. Another recent COMSERV at this school had the boundary walls / fence started to be painted, again some sections of this remain and will be finished by the USS Pinckney during this COMSERV. Here are some photos of the work areas for this COMSERV project.

Prep Work to be accomplished the day before the COMSERV will be power washing and cleaning of the cement columns, to be accomplished by local government maintenance personnel and the older children at the school.

**Additional Information:** COMSERV volunteers will get a free Thai lunch at 12:00 hours made by the school staff and children's parents. This is not a normal school day, however, we shall try to get the school to provide some cultural entertainment from the children with some singing and/or Thai Traditional Dancing during lunch. There will also be an opportunity to play some soccer with children that are always at the school on the weekend.

**What to Bring:** The weather is hot and muggy this time of the year in Phuket and there is a chance of rain, so plenty of drinking water is needed during the work phase. So if the USS Pinckney COMSERVE coordinators can arrange to bring enough drinking water for use during the work period or coordinate with the husbanding agent for such, that is highly recommended. Sun screen will also be needed and we suggest all COMSERV participants also bring their cameras. Bus transport will also need to be coordinated with the USS Pinckney SUPPO and the Husbanding agent.

This COMSERVE project in cooperation between the USS Pinckney and the following Local Organizations.

**Estimated Budget for this Project:** The sponsor for this project will be Glenn Defense Marine who is the Husbanding contractor for the US Navy in Thailand. The US Navy League shall provide ladders, drop cloths and / or tools as needed. The school will provide the lunches and soft drinks.

The following is the expected budget for this 2 COMSERV project:
